Eco-friendly

A new generation of highly popular innovative rechargeable AA/AAA battery **charged with a USB cable**. Thanks to the introduced improvements, such as changing the type of cells and increasing the capacity of the battery, replacing the charging port to Type-C and significantly reducing the charging time and more than doubling the battery life, this unique product fits even better into the **ecological trend** reducing of the amount of hazardous polluting waste. Thanks to the great possibility of **personalizing the product**, both on the packaging and on the surface of the batteries themselves, it is one of the most interesting and practical ecological advertising gadgets.

packaging

RoBio eco multi charging cable has been produced with respect for the natural environment from ecological materials, which are biodegradable after the end of their life. The packaging of the product is also made of eco-friendly biodegradable corn-based material, thanks to which the negative impact of this multi-adapter on the environment has been reduced to a minimum. In addition to the ecological advantages, the RoBio cable is primarily a high-quality adapter that allows you to charge all modern smartphones and electronic devices with a current of up to 3A. It is equipped with a double Type-C + USB input and three MicroUSB, Type-C and Lightning output connectors.

RCC02 USB cable **3in1 GUYANA**

Universal USB cable compatible with all modern smartphones, thanks to the 2-in-1 connector (micro USB + lightning) and the built-in typeC adapter. The cable has a practical form of a lanyard, on the surface of which we can make any print in full color on both sides. In addition, the connectors of the cable are secured with a round or square plastic cap, on which we can also print the logo. The cable allows not only charging devices, but also data transfer. Advertising cables are available on the market in many different versions, but the form of the USB lanyard cable is definitely one of the most popular, thanks to the almost unlimited possibilities of customization.
